ENVS

## EXECUTIVE SUMMARY

This dataset provides a summary of record counts collected from five monitoring locations. The distribution of data is well balanced across all sites

100

poojappura park 20%

energy manage

putharikandam oat 19%

medical college 2

captain lakshmi park 20%

■ captain lakshmi park   ■ energy management centre, sreekaryam   ■ medical college   ■ poojappura park

ANALYSIS OBSERVATIONS

The table presents the count of records by address across five locations. All locations show similar counts, indicating a fairly balanced distribution of data.

pm10   **prediction_aqi**

ANALYSIS OBSERVATIONS

The dataset shows daily predicted AQI values and corresponding PM10 concentrations from November 20 to December 13, 2025.
Overall, air quality conditions appear stable and moderately consistent throughout the period.
